1050 - 1100 Hrs	Tea/Coffee Break. Experience Zone & Exhibition Walkthrough by the Dignitaries	

1100 – 1215 Hrs	Session 1: India on Vocation – All hands at Work	
As India's services sector grows, the need for vocational skills increases. The maturing of the skills sector results in the formalisation of skill profiles and competence assessments for hiring by the diverse sectors of industry. The services at your door step phenomenon is creating demand for many types of service professionals for home consumer while the CSR initiatives of the corporates drive the standardisation of skill maps. The session delves into these new facets of vocational skills; debates the new age skills, models of skilling, training & capital structures which drive them.

1200 Hrs	Q&A	
1210 Hrs	Closing Remarks by	Mr L Ravichandran
1215- 1330 Hrs	Session –2: Our Earth- Now or Never	
The ongoing debate of the climate change and its effect on our planet is something that cannot be ignored or delayed as an academic analysis or a sporadic event. It has started changing our rain seasons; sowing patterns; heat zones and coastlines to the extent that it is impacting business models, citizen health, national output and perhaps our survival in the medium term. The session covers the multi dimensional and inter-disciplinary nature of this impact and the choice we have got before us so that we leave our planet for the next generation in a sustainable way.		
1215 Hrs	Opening Remarks by	Mr Alok Nanda Managing Director & CTO GE India Technology Centre Pvt Ltd

1330 Hrs	Lunch	
----------	-------	--

1430 – 1545 Hrs	Session 3: Our Connected Life- Living in a 5G World	
<p>The emergence of machine era and our life in a connected world with a blend of machines and humans drives a different set of services and behaviours for an ordinary consumer. The mix of autonomous, semi autonomous and manual services in our consumer life challenges societal practices, behaviours and skill sets needed to thrive in a hyper connected world. The technical boundaries melt away while the cultural boundaries raise in this new world and start impacting human relationships and transactions. The session delves into these lives of the hyper connected world and how it can co-exist with the unique identities of different cultures.</p>		
1430 Hrs	Opening Remarks by	Mr K R Sanjiv Chief Technology Officer Wipro Technologies Ltd

1545 – 1615 Hrs:	Tea / Coffee Break	
------------------	--------------------	--

1615 – 1730 Hrs	Session 4: Words are Us- A language to Remember	
<p>The proliferation of mobile data services in rural India is driving the engagement with many digital services for delivery. The change in demographic ratio is creating a robust demand for local language services and vernacular support for digital applications. The impact of work related migration creates demand for common trade supported languages like English and Hindi, but it creates a longing for the native language learning as well. As language is the primary symbol of local culture in a region, there is a convergence of transaction affinity and cultural affinity. The session discusses the future of local languages in terms of business potential, cultural legacy and preservation and the impact of technology on this domain in terms of common script, digitization and archival/retrieval.</p>		
1615 Hrs	Opening Remarks by	Prof Suresh B Chairman NSRCEL, IIMB

-----------------	--

1045 - 1155 Hrs	Session 5: A Time to refuel- New Engines of Mobility	
<p>The stricter emission norms and the planet focus are driving the adoption of non-fossil fuels in the transportation industry. The mass transportation segment in the urban zone is changing rapidly and is perhaps the first point of inflection for electric vehicle usage. The growth of corporate campuses, apartment complexes and the high foot fall zones of transit points of airport, metro station and shopping zones is driving the rapid last mile usage of EV segment. The session deliberates the opportunity, policy enablers, skill gaps and economics of mobility in this context.</p>
